SUMMARY

Full Stack Developer with 2 years of experience in crafting intuitive, visually engaging web interfaces. Skilled in React, .NET, MVC, HTML, CSS, and JavaScript, with a strong focus on responsive design and seamless user experiences.

EXPERIENCE

Full Stack Developer

Jul 2024 – present

AI Quantum Soluion

- Developed and optimized the front end of a web application using React, ensuring a smooth and responsive user experience tailored to complex user interactions.
- Developed backend in .NET to integrate frontend features seamlessly, maintaining data consistency and efficient communication between the frontend and backend.
- Created reusable components in React, enhancing development efficiency and consistency across the application.

UI/UX Designer

Aug 2023 – Jun 2024

Triotech Systems

- Designed a mobile app from scratch focused on AI-based workout and nutrition suggestions, ensuring a user-friendly interface by conducting extensive user research and iterative prototyping.
- Conducted user research and usability testing, leading to a 20% increase in user friendliness and a 15% improvement in app functionality.
- Created wireframes, mockups, and prototypes using Figma and Sketch, resulting in clear visualization of design concepts and improved user flow.
- Collaborated with developers, product managers, and stakeholders, ensuring alignment with project goals and constraints, resulting in timely project delivery

Software Engineer Intern

Feb 2023 – July 2023

Bitnine

- Contributed to various software development projects, Designing Interfaces and actively engaging in their planning, and development.
- Delved deep into the world of PostgreSQL and Apache AGE, gaining valuable experience in database management and optimization.
- Significantly improved skills in debugging, allowing to identify and resolve complex issues efficiently.
- Collaborated with a team of professionals, enriching understanding of teamwork and effective communication, resulting in a 10% increase in team productivity and project success rate

EDUCATION

Bachelor of Science, Computer Science

National University of Science & Technology (NUST)

INVOLVEMENT

Lead

Google Developer Students Club

- Led the design team in creating visually compelling and user-friendly digital assets, including event posters, social media graphics, and website layouts, to enhance the club's brand identity.
- Organized and facilitated tech workshops and training sessions, fostering a collaborative and creative environment.
